**Project 1**

---

Groups of 2-3

Design a fully functional website or software, with any purpose.

The purpose of the application must be described by the group and the reasoning behind it.

Design 7 to 9 different pages for the application, using Balsamiq wireframes no page can be equal to the previous one, with exception of task bars, or menus.

All pages must be considered using the 8 golden rules, not all rules will apply to each page, and shortcuts will not be necessary.

Write a description of each page and explain all possible golden rules that apply to it and the reasoning behind it.

Due date: October 20<sup>th</sup> 2022.
